Process Book:

- Date of entry: April 21st 2024
- What I've worked on: Git
- What problems I encountered: None
- What I learned: How to make use of it.
- Which resources did I use: The SP website.

- Date of entry: April 21st 2024
- What I've worked on: bokeh (basic plotting and styling + lay-out)
- What problems I encountered: None
- What I learned: Some basic skills for bokeh and how to deal with visual aspects of the plot.
- Which resources did I use: I made use of the Bokeh notebooks.

- Date of entry: April 21st 2024
- What I've worked on: bokeh (data sources and transformation + interactions)
- What problems I encountered: None, sometimes difficult, but not really difficult.
- What I learned: column data sources, wedge method, linking plots, sharing data sources etc.
- Which resources did I use: I made use of the Bokeh notebooks.

- Date of entry: April 21st 2024
- What I've worked on: read (or skimmed) the articles on visualization.
- What problems I encountered: None
- What I learned: plenty of things to consider while visualizing. for instance, shape, use, functionality, and visual appeal.
- Which resources did I use: articles on SP website.

- Date of entry: April 23th 2024
- What I've worked on: revised bokeh
- What problem I encountered: None
- What I learned: nothing new, but nonetheless useful
- Which resources did I use: notes

- Date of entry: April 26th 2024
- What I've worked on: Worked on the final project
- What problem I encountered: some errors, some issues, but no big problems
- What I learned: I learned how to put bokeh's functionalities in practice, learned about the dataset. Great process this day, answered the main rq. From here on, working on making the code itself better, and deciding on subquestion.
- What resources did I use: notes, skills

- Date of entry: May 4th 2024

- What I've worked on: revised code.
- What problem I encountered: Nothing in particular, except for some git troubles
- What I learned: nothing specific
- What resources did I use: my code

- Date of entry: May 10th 2024
- What I've worked on: finished up the code. Color coded regions.
- What problem I encountered: nothing in particular, but I needed to troubleshoot quite a bit, since some things didn't work anymore.
- What I learned: to make my code very readable and clear
- What resources did I use: previous materials , bokeh materials

- Date of entry: May 1th 2024
- What I've worked on: wrote project description
- What problem I encountered: none
- What I learned: nothing specific
- What resources did I use: my materials
